

SUSTAINING THE MISSION 2000 – 2025

FORSCOM ENVIRONMENTAL PROGRAM

Senior Environmental Leadership Conference

An
integrated
strategy...

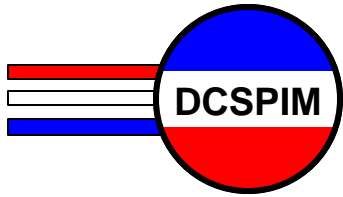

...with
defined
end state...

...linking
objectives
to
resources,.

engaging
stakeholders
at all
levels.

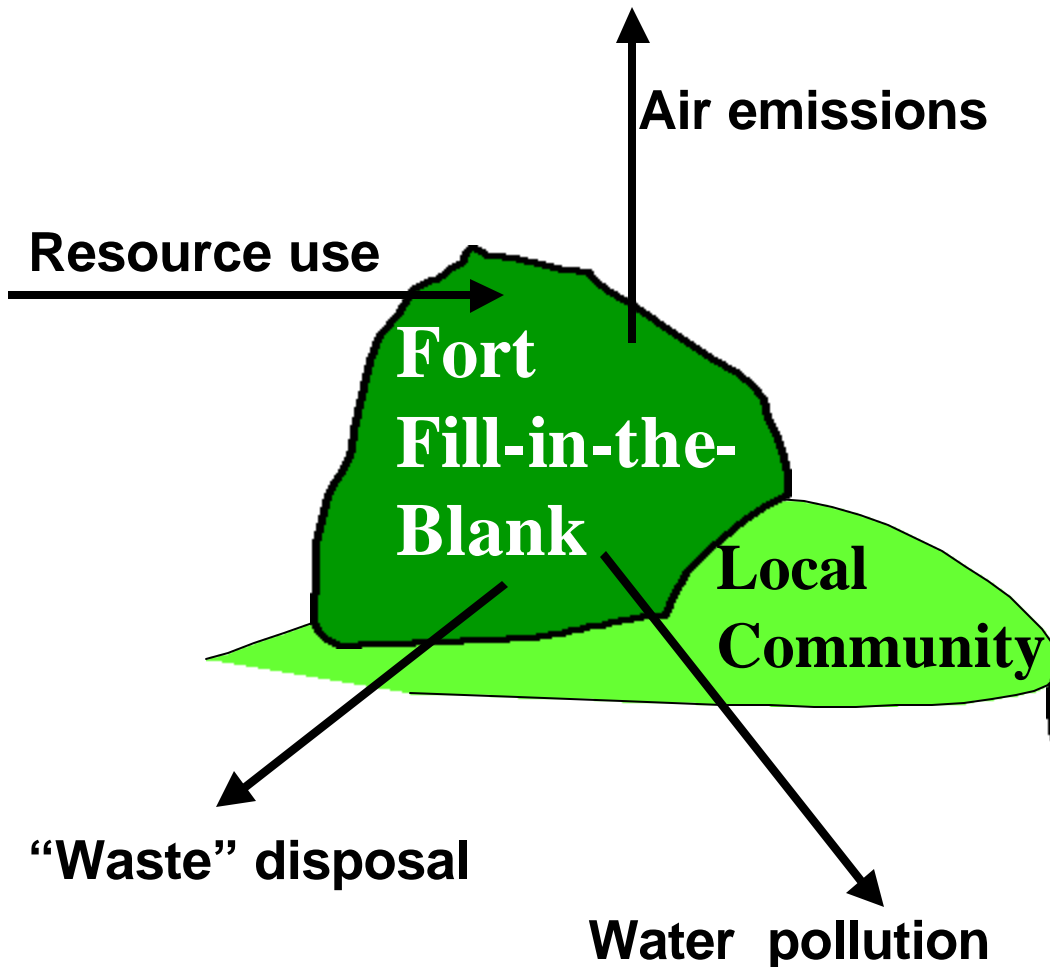

SUSTAINING THE MISSION

Sustaining the Mission

Integrated Environmental Master Plans

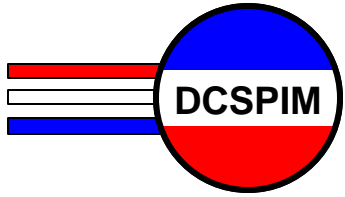

The Baseline

- What are the impacts?
- Which are significant?
- Which can we prevent?
- Which do we manage?

The Plan

- 25-year goals
- 5 year resource plan
- Consensus-building process similar to IAP workshops

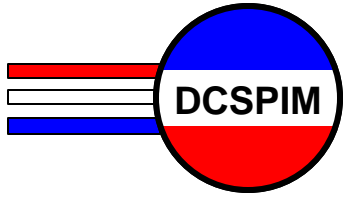

Sustaining the Mission

Integrated Environmental Master Plans

All animals are created equal...but some animals are more equal than others.

- ✦ **Some environmental impacts are more significant than others**
 - ▶ **Some can be managed without long-term consequences**
 - ▶ **Others threaten our long-term viability**
- ✦ **Significant Impacts**
 - ▶ **mission constraints**
 - ▶ **regional environmental issues**
 - ▶ **high cost**

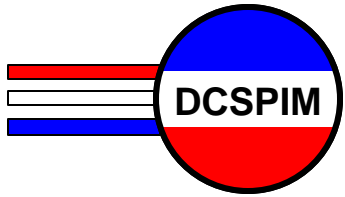

Example 25-year goals

- ✦ **90% reduction in aquifer use**
- ✦ **75% reduction in air emissions**
- ✦ **Buildings rated at LEED platinum level (“green buildings”)**
- ✦ **100% procurement/lease of recyclable materials**
- ✦ **80% reduction in energy costs**
- ✦ **Restore 25% of land and aquatic ecosystems**

Sustaining the Mission

Integrated Environmental Master Plans

The Approach

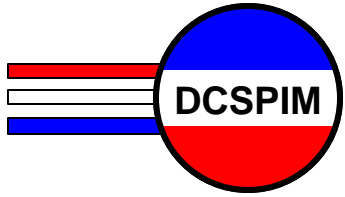

- ✦ **Build the team**
- ✦ **Develop the baseline**
- ✦ **Set 25-year goals**
- ✦ **Establish 5-year plan**

**An integrated strategy,
engaging all stakeholders,**

with a defined end-state,

**linking objectives to
resources.**

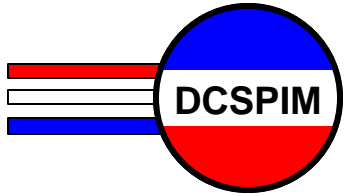

Sustaining the Mission

Integrated Environmental Master Plans

WHY?

- ✦ **Sustain our operations over the long haul**
- ✦ **Lessen training constraints**
- ✦ **Give soldiers the best**
- ✦ **Improved compliance posture**
 - ▶ **ENF reduction**

Sustaining the Mission

✦ A Sustainability Initiative

To develop operational procedures that support our mission in the present without compromising our ability to accomplish our mission in the future.

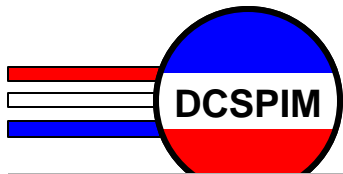

✦ A Process

Consensus Building – among soldiers, commanders, civilians, regulators, and the local community about the installation's future

✦ A Plan

Integrated framework, tied to resources, that ensures viability of installation as a power projection platform

QUESTIONS?

An
